

Internet Explorer 8 Compatibility View

In the spring of 2009 Microsoft released its newest edition of Internet Explorer (IE), version 8. At this time, Internet Explorer 8 is not compatible with RamCT.

To make Internet Explorer 8 work well with RamCT you need to turn on the Compatibility View for the RamCT website.

1. From the **Tools menu** *select Compatibility View Settings*.

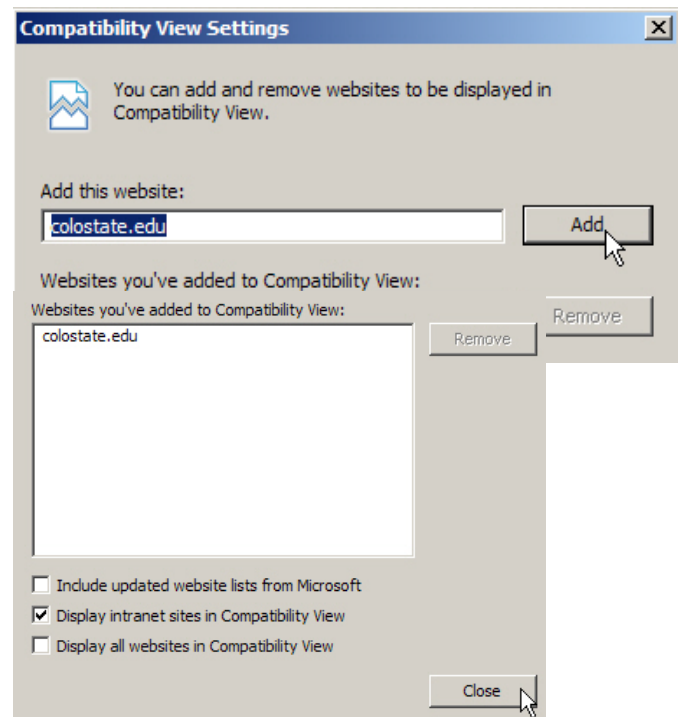

2. In the **Add this website** box *type:*

colostate.edu

3. *Click Add*

4. *Click Close*

This should allow you to work with IE 8 and RamCT.
