Hide Unenrolled Students in the RamCT Blackboard Grade Center

In the RamCT Blackboard Grade Center, you will often see students with this symbol next to their last name. This indicates that the student has dropped the course.

You can hide these students so they do not appear in your grade center.

1. In your RamCT Blackboard course, under Control Panel, click on Grade Center.

2. Click on Full Grade Center.

3. Under the Manage drop down menu select Row Visibility.

4. Place a check next to any students who have the symbol next to their last name.

5. At either the top or bottom of the page click Hide Rows.

6. Click Submit.

The students who have dropped the course will no longer be visible in the Grade Center.
