

RamCT Blackboard - Turn Internet Explorer Compatibility Mode OFF

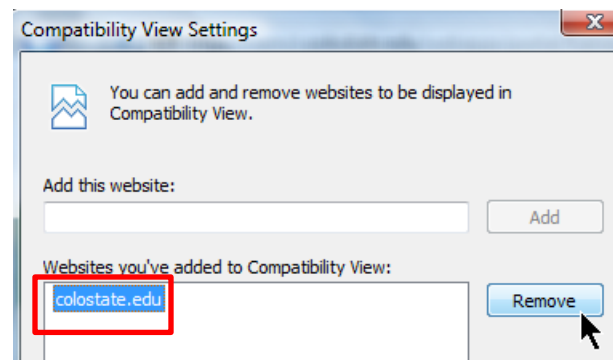

Some features in RamCT Blackboard do not work properly when Internet Explorer version 8 or 9 has Compatibility Mode turned on.

We recommend that Internet Explorer 8/9 users who access RamCT Blackboard turn Compatibility View **Off**.

1. With Internet Explorer open, under the **Tools** menu, *select Compatibility View Settings*.

2. Under **Websites you've added to Compatibility View** *click colostate.edu*.

3. *Click Remove.*

colostate.edu should no longer be listed under Websites you've added to Compatibility View.

Websites you've added to Compatibility View:

4. *Click Close.*
5. *Close* and then *reopen Internet Explorer.*
